

## ABOUT

*Pierce Arrow Inc. is a family-owned company located in Henrietta, Texas. We create equipment and accessories for ranchers, outdoor enthusiasts, trailer operators and the day-to-day workingman.*

The PIERCE® team lives by three simple words, “pulling for you.” This is our corporate attitude and how we take care of your business. We are pulling for our customers, vendors, suppliers and team members on a daily basis through dedicated service. In 2014, we were awarded the BBB North Central Texas Torch Award in the large business category and went on to the International Torch Awards as a finalist. Our customers return because they know we will take care of them – from their first purchase to maintenance, our team is here to help.

## PERFORMANCE.

NO MATTER THE CONDITIONS.

*VaxMate is a one-of-a-kind rotomolded high performance cooler designed to ensure your vaccines are kept at the correct temperature - no matter the forecast.*

# Protect your investment.

VaxMate is a rotomolded cooler designed by ranchers for ranchers and veterinarians. VaxMate keeps vaccines at controlled temperatures\* during transport and chute-side application.

The ideal temperature to store your vaccines is between 35 to 45°F (2 to 8°C)\*. Setting up the temperature alarm on the gauge is very easy.

The stainless steel syringe holders protect syringes and vaccines from the heat, cold and UV light during vaccine administration.

Designed in Henrietta, Texas.

## FEATURES

- Keeps your syringes cool, clean, and out of the sun while loaded with the vaccine or medicine. Syringes get very hot when left out in the sun.
- The digital display on the side shows the temperature.
- VaxMate will sound an alarm when the temperature rises or lowers beyond the set range.
- Durable construction will protect your vaccination investments.
- Medical tray and syringe holders constructed of stainless for durability and sanitation.
- Dry storage bag and sharps container available.

Stainless steel syringe holders

Stainless steel tray

Leak-proof seal

Drain plug

Friction pads for added stability

Temperature gauge with alarm
